

Roommate Finder Sequence Diagram and Description

Jaeger Nelson, Beck Williams, Katie Brickner, Matthew Heseltine

This sequence diagram displays the process of:

- user login
- checking survey status
- completing a survey
- updating system
- displaying results

The sequence diagram helps us see the flow of messages to better understand the order of events in the system. It also shows us the activation bars, letting us visualize how long each system/class is active by showing when it is activated and deactivated. Additionally, conditions are used to show when we proceed with certain actions.
